Review360:

Special Education Benefits and Solutions

Special Education Benefits

Special Education Teacher's Benefits

Review360 provides Special Education teachers with professional development, intervention strategies, guided implementation support, and highly configurable data collection with advanced reporting to help support them as they improve student behavior. The web-based system enhances communication between General Education and Special Education teachers for students who are in both settings. The data derived from Review360 assists in making appropriate placement decisions for ESY.

Special Education Student's Benefits

Students experience an aligned behavior program with consistent interactions resulting in positive outcomes they can actually see in comprehensive reports and charts. Review360 provides consistent intervention measures, resulting in increased academic success in any classroom setting. Technology-enabled daily communication with parents is easy and helps extend the benefits of the behavior program beyond the classroom.

School / District Benefits

Review360 promotes better continuity in services. Consistent data collection, progress monitoring, intervention strategies, and reporting leads to less time and resources used by the team; more accountability; and improved allocation of resources such as ESY, 1 to 1 aides, out-of-district placements, etc.

Special Education Solutions

Engage

Focus on a single disability group and engage all stakeholders in a proven path to better student behavior and improved academic outcomes with progress monitoring, professional development and incident management.

Expand

Expand your implementation and add additional special needs populations. Review360 has targeted interventions, strategies, and progress monitoring methodologies for several disability groups.

Enterprise

Craft a customized, districtwide Special Education behavior improvement solution that will help all stakeholders successfully navigate the complex special education terrain making the experience more successful for teachers and students.
